

Innovation in Mass Finishing

Rösler rotary dryer RT Euro-DH

The ideal solution for cost-effective and efficient drying of your work pieces

Highly energy-efficient

Reliable

Fast

Your benefits:

- ▶ Short heating-up phase
- ▶ Heat block elements guarantee a high efficiency
- ▶ Drying without residual spots on the work pieces
- ▶ Drying of the work pieces in a single pass (continuous feed mode) or in batches
- ▶ Minimal dust load during operation
- ▶ Possibility for pre-setting the temperature
- ▶ Temperature controlled by thermostat
- ▶ Protection against overheating
- ▶ Dryer can be easily linked with all kinds of mass finishing systems

30 – 40 %
less energy consumption

Compared to previous dryer models
